

## Workshop Series 2008

# Writing up Your Results

Presented by Dr Erica Bell and Dr Clarissa Hughes

Clear well-structured writing not only increases the impact of your work, it helps you to better organise your thinking about that work. This hands-on workshop will take participants through some techniques for turning their thoughts and ideas into clear text that 'speaks' to the intended reader. The content will be applicable to anyone who needs to provide written reports as part of their work whether that is periodic reports to managers or articles for academic journals.
