Primary Health  
Care Research,  
Evaluation and  
Development  
Program

# SIXTH ANNUAL STATEWIDE SYMPOSIUM

Thursday 19 November 2009

WELLINGTON ROOM  
WREST POINT CASINO  
SANDY BAY

## 'GETTING IT OUT THERE'

**Special Guest Speaker**  
**Associate Professor Ellen McIntyre**  
**(OAM)**

Manager, Primary Health Care Research & Information Service  
Flinders University

The seventeen papers in this program, like primary health, covers a wide spectrum of projects and approaches in a range of stages of development. Areas include health behaviour interventions and programs, program evaluations, research design and methodologies, rural health and professional practice issues.

This is an opportunity for anyone with an interest in primary health care to meet, network and learn from others across the research and evaluation community.
