Workshop Series 2009

Workshop 12 Rigour and Research Design for Qualitative Researchers in Health

Level:

Intermediate, best suited for researchers with some experience in qualitative research. For example, those with an honors degree, studying for a masters or PhD or with some years experience conducting applied qualitative research and evaluation.

Workshop Description:

Good qualitative researchers want to design and conduct projects that will be taken seriously and produce trustworthy data. This workshop will explore the notion of rigour in qualitative research. Workshop participants will become familiar with the concept of rigour and with various strategies and procedures they can use to help ensure rigour in their own research.

<u>Venue</u>		
Hobart	Conference Room, St John's College Top of College Road, Sandy Bay	Thu 5th Nov
