Workshop Series 2009

Workshop 3 Qualitative Research Methods – Interviewing Presented by Dr Emily Hansen & Ms Danielle Williams

This workshop provides an overview of interviewing as a data collection tool for qualitative research and evaluation. Topics covered will include: A background to interviewing, including the history of interviews as a research tool. When to use interviews and what they bring to a project. How to conduct qualitative interviews. Some basic tips on managing and analysing interview data. Some knowledge of qualitative research will be advantageous. Dr. Emily Hansen is the author of “Successful Qualitative Health Research: A Practical Introduction” and a Research Fellow in Primary Health Care at the Menzies Research Institute.
